## Courses

### ● Visualizing Data with Python

Jun 7, 2023

- Check Course certificate here <https://coursera.org/share/a5d681389e0b2e53c4afaf6bf53e6d84>

### ● Using Data Python to Access Web

March 20, 2023

- Check Course certificate here <https://coursera.org/share/7a8ca6d8629b84ed27215bda2490e9fd>

### ● Python Data Structures

March 1, 2023

- Check Course certificate here <https://coursera.org/share/24164bf35b0fb882234403951d09c749>

## Technical Projects

### ● Booking System

Features :

- Room reservation processing
- Create profiles for users

### ● Social media app

I developed this platform and it has most of the features that social media platforms have, including:  
The user obtains profile The user can follow other users  
They can also register likes and comments on their posts  
The user can post a photo or video

### ● Meal Rater

I used the Django Rest framework to create APIS for part of a restaurant website. Its goal is to enable the user to evaluate meals, while ensuring that the user does not evaluate the same meal more than once.  
And create a special TOKEN for the user to use to log in.

## Education

**Bachelor of Laws Bachelor of Laws – Mansoura University**  
2015 – 2021 (Good)

## Hard Skills

- Python
- Django
- Django Restframework
- Django Template Language(DTL)
- Object Relational Mapping (ORM)
- HTML, CSS
- SQL, PostgreSQL
- Agile (scrum)

## Tools

- Visual Studio (Python)
- Git, Github
- Postman

## Soft Skills

- Creativity
- Collaboration
- Critical thinking
- Problem Solving
- fast learning
- Emotional intelligence and communication
